EXPLORATION GEOPHYSICS, REMOTE SENSING AND ENVIRONMENT

Journal "Exploration Geophysics, Remote Sensing and Environment" (EGRSE) publishes original contributions dealing with:

- **application of geophysical methods in geology, engineering geology, hydrogeology,**
- **geofactors of environment and geothermal energy,**
- **remote sensing and its application in geology, geodesy, GIS and ecology,**
- **tectonophysics, physics of the interior of the Earth, seismology, seismotectonics and seismic hazard**

Editorial board:

Chairman:

BLÁHA Pavel, Assoc. Prof., RNDr., D.Sc., GEOTest, a.s., Brno, Czech Republic

Members:

GAJDOŠ Vojtech, Assoc. Prof., RNDr., CSc., Comenius University, Faculty of Sciences, Bratislava, Slovakia (retired).

IDZIAK Adam, Prof. zw., Dr. hab., University of Silesia, Faculty of Earth Sciences, Sosnowiec, Poland.

JIRÁNKOVÁ Eva, Assoc. Prof., Ing., Ph.D., VŠB-Technical University of Ostrava, Faculty of Mining and Geology, Czech Republic.

KALÁB Zdeněk, Prof., RNDr., CSc., Czech Academy of Sciences, Institute of Geonics, v.v.i., Ostrava, Czech Republic.

MYKOLA Yakymchuk, Prof., Dr., President of All Ukrainian Association of Geoinformatics (AUAG), Kyiv, Ukraine.

PALACKÝ Jiří, Mgr., Ph.D., Geological Survey of Canada, Ottawa, Canada, (retired).

RYŠAVÝ František, RNDr., Karotáž a cementace s.r.o., Hodonín, Czech Republic, (retired).

TÁBOŘÍK Petr, RNDr., Ph.D., Charles University, Faculty of Sciences, Prague, Czech Republic.

VLČKO Ján, Assoc. Prof. RNDr., Ph.D., Comenius University, Faculty of Sciences, Bratislava, Slovakia.

Editor in chief:

RYŠAVÝ František, RNDr.

EGRSE is the official Journal of ČAAG - the Czech Association of Geophysicists, issued twice a year. Deadlines for submission of articles are: January 10; July 10. ČAAG is associated with EAGE from 1997.

Issued price 250 Kč. Single issue price: 450 Kč (two issues), exclusive of postage. Journal is distributed by the editors.

Advertising: Advertisements are accepted. Information on prices can be received from the editors.

COVER: Seismic device Terraloc Mk8 during the measurement of propagating seismic waves velocities from the blasting, P1 – 184 m long seismic profile located in the Včeláre quarry, Slovakia. Author: Blažej Pandula, F BERG TU v Košiciach.

Instructions for authors

G IMPULS Praha Ltd. - complete near-surface geophysical survey

G IMPULS Praha spol. s r.o. - kompletní povrchový geofyzikální průzkum

Services: According to physical parameters of the environment we are capable to provide spatial information about an area even without drillholes. Thanks to geophysics placing of the drillholes can be very effective. Our company has widespread experience in engineering geology, civil engineering, hydrogeology, ore geology or in environmental issues. Geophysical methods are generally non-destructive. Most of our projects are ground-based, part of our works is on water or airborne as well.

Main office: Přístavní 24, 170 00, Praha 7, Czech Republic
